

Florence Gutierrez

WEB DEVELOPER | AUTOMATION AND INTEGRATIONS

Philippines | +63 976 150 5276 | florencegutierrezmain@gmail.com
[LinkedIn](#) | [Portfolio](#)

PROFILE

Developer with 3+ years of professional web-development experience, including internal workflow systems and API integrations. Built portfolio-documented automations involving file processing and lead follow-up. Strengths include translating operational steps into structured workflows, connecting systems, and troubleshooting across applications and data.

TECHNICAL SKILLS

Automation: Make.com, Zapier, n8n, GoHighLevel, webhooks, JSON

Development: PHP, Laravel, JavaScript, REST APIs, MySQL, PostgreSQL

AI tools: Gemini, ChatGPT, Claude Code, Codex, GitHub Copilot, Cursor

PROFESSIONAL EXPERIENCE

Full Stack Developer | Golden Pencil Nov 2024 - Present

- Built a PHP/MySQL budget request system with departmental approvals, expense tracking, reporting, and role-based access.
- Developed inventory and asset workflows for stock monitoring, checkout, endorsements, approvals, and user permissions.
- Maintain PHP and WordPress applications, troubleshoot production issues, and support third-party integrations.

Full Stack Web Developer | Inext Software Apr 2024 - Sep 2024

- Developed and maintained Laravel applications and database integrations for client and business requirements.
- Updated legacy Laravel systems, resolved defects, and improved code organization and maintainability.
- Implemented WordPress layout, theme, plugin, and backend changes for client sites.

Junior Programmer | Prestige Interactive Aug 2023 - Apr 2024

- Maintained business and location records using SQL, CRM tools, and HeidiSQL.
- Updated directory content and advertising layouts and supported Laravel-based deployments.

SELECTED WORK

Client Attachments | Make.com, Gemini, Google Drive, Sheets | File organization, detail extraction, routing

Lead Follow-Up | Zapier, webhooks, Gmail | Lead capture, qualification, and follow-up workflow
