

Florence Gutierrez

FULL STACK DEVELOPER | PHP AND LARAVEL

Philippines | +63 976 150 5276 | florencegutierrezmain@gmail.com
[LinkedIn](#) | [Portfolio](#)

PROFILE

Full-stack developer with 3+ years of professional experience building PHP/Laravel applications, WordPress sites, and internal business systems. Work spans relational data, role-based workflows, REST APIs, responsive interfaces, and production troubleshooting.

TECHNICAL SKILLS

Backend: PHP, Laravel, REST APIs, webhooks, MySQL, PostgreSQL, database design

Frontend: JavaScript, React, HTML, CSS, Tailwind CSS, Bootstrap

Delivery: Git, GitHub, Linux, CI/CD, cPanel, production debugging

PROFESSIONAL EXPERIENCE

Full Stack Developer | Golden Pencil Nov 2024 - Present

- Built a PHP/MySQL budget request system with departmental approvals, expense tracking, reporting, and role-based access.
- Developed inventory and asset workflows for stock monitoring, checkout, endorsements, approvals, and user permissions.
- Created a queue management system with kiosk registration, ticket generation, service selection, real-time displays, and multi-counter serving.
- Maintain PHP and WordPress applications, troubleshoot production issues, and support third-party integrations.

Full Stack Web Developer | Inext Software Apr 2024 - Sep 2024

- Developed and maintained Laravel applications and database integrations for client and business requirements.
- Updated legacy Laravel systems, resolved defects, and improved code organization and maintainability.
- Implemented WordPress layout, theme, plugin, and backend changes for client sites.

Junior Programmer | Prestige Interactive Aug 2023 - Apr 2024

- Maintained business and location records using SQL, CRM tools, and HeidiSQL.
- Updated directory content and advertising layouts and supported Laravel-based deployments.

SELECTED WORK

Budget Request System | PHP, MySQL, Bootstrap | [Submission](#), approvals, expense tracking, and role-based access
