PROFILE

WordPress developer with 3+ years of professional web-development experience. Personally built five live WordPress websites using Elementor Pro, and also maintain and troubleshoot existing sites. Comfortable with responsive page builds, content and layout updates, PHP/CSS/JavaScript adjustments, hosting, and technical SEO basics.

TECHNICAL SKILLS

WordPress: Elementor Pro, themes, plugins, Gutenberg, Divi, WooCommerce

Web: PHP, HTML, CSS, JavaScript, responsive design, forms, SEO fundamentals

Operations: cPanel, Git, backups, troubleshooting, GA4, Search Console, Tag Manager

PROFESSIONAL EXPERIENCE

Full Stack Developer | Golden Pencil Nov 2024 - Present

- Maintain PHP and WordPress applications, troubleshoot production issues, and support third-party integrations.
- Built a PHP/MySQL budget request system with departmental approvals, expense tracking, reporting, and role-based access.
- Developed inventory and asset workflows for stock monitoring, checkout, endorsements, approvals, and user permissions.

Full Stack Web Developer | Inext Software Apr 2024 - Sep 2024

- Developed and maintained Laravel applications and database integrations for client and business requirements.
- Updated legacy Laravel systems, resolved defects, and improved code organization and maintainability.
- Implemented WordPress layout, theme, plugin, and backend changes for client sites.

Junior Programmer | Prestige Interactive Aug 2023 - Apr 2024

- Maintained business and location records using SQL, CRM tools, and HeidiSQL.
- Updated directory content and advertising layouts and supported Laravel-based deployments.
